Work Experience

Cooper Carry **May 2025 – Nov 2025**
Planning Studio Intern *Atlanta, GA*

- Leveraged GIS skills to source, analyze, and synthesize spatial data that informed large-scale urban design and planning projects.
- Developed comprehensive design guidelines for both a municipal planning initiative and a major multifamily development, aligning recommendations with community feedback and best practices.
- Produced high-quality graphics, maps, and visualizations using InDesign, Illustrator, Sketchup, and Rhino to clearly communicate design concepts and planning strategies.

Center for Urban Resilience and Analytics **August 2024 – Present**
Graduate Research Assistant *Atlanta, GA*

- Designed a reinforcement learning agent integrated with computer vision tools to seek out bus stops in Google Street View and evaluate amenity quality. Paper to be published soon.

Message Gears **May 2023 – Aug 2023**
Software Engineer Intern *Atlanta, GA*

- Completed 12 stories spanning the entire stack with a team of full-time developers utilizing AGILE practices. Implemented new UI features in a SPA application using Angular JS, integrating them into the backend by writing REST API protocols in Java. Bug-fixed a JSP web application.

Fortify Rights (NGO) **May 2022 – Aug 2022**
Research Intern *Remote*

- Discovered potential partnerships with other human rights organizations, profiling candidates through extensive research. Presented findings to entire team, pitching potential partnerships.
- Utilized Russian language skills to uncover connections between the governments of Myanmar and Russia. Presented findings to team.
- Created a web application to streamline research process and organize findings, enabling better comparison of data.

ProgenaCare Global **May – Dec 2021**
RND Intern *Atlanta, GA*

- Developed prototype product companion mobile app using Xamarin library (replaced by .Net Maui), including functional data-graph backend hosted on Azure and queried with Gremlin Query Language.
- Researched potential applications of artificial intelligence in the wound care process, including precisely tracking healing progress.

Sunrise Movement / Rhode Island Political Cooperative **Sept – Dec 2020**
Analyst / Researcher Intern *Providence, RI*

- Researched ways to retrofit affordable housing in Rhode Island with sustainable appliances and weathering equipment. Arranged findings into a formal policy brief.

National Center for Civil and Human Rights **August 2017 – May 2018**
Lead Content Curator, Drum Major Exhibit *Atlanta, GA*

- Oversaw content curation for a group of students selected to construct a virtual reality exhibit commemorating the 50th anniversary of Dr. Martin Luther King, Jr.'s death.

Education & Awards

Georgia Institute of Technology

- Master's in City and Regional Planning. Graduate research assistant at the Center for Spatial and Visual Planning.

Brown University **Graduated December 2023**

- Bachelor's degrees in both Computer Science and International and Public Affairs. 3.8 GPA.

Eagle Scout

- Collected and refurbished laptops for use by underserved immigrant students.

Skills & Interests

- Software: Extensive experience with Microsoft Office, R Studio, Adobe InDesign, Adobe Illustrator, Sketchup, Rhino
- Advanced spatial analytics leveraging ArcGIS and Python (GeoPandas, Shapely, OSMNX) for geospatial data processing.
- Experience with traffic simulation tools, including SUMO and Mesa.
