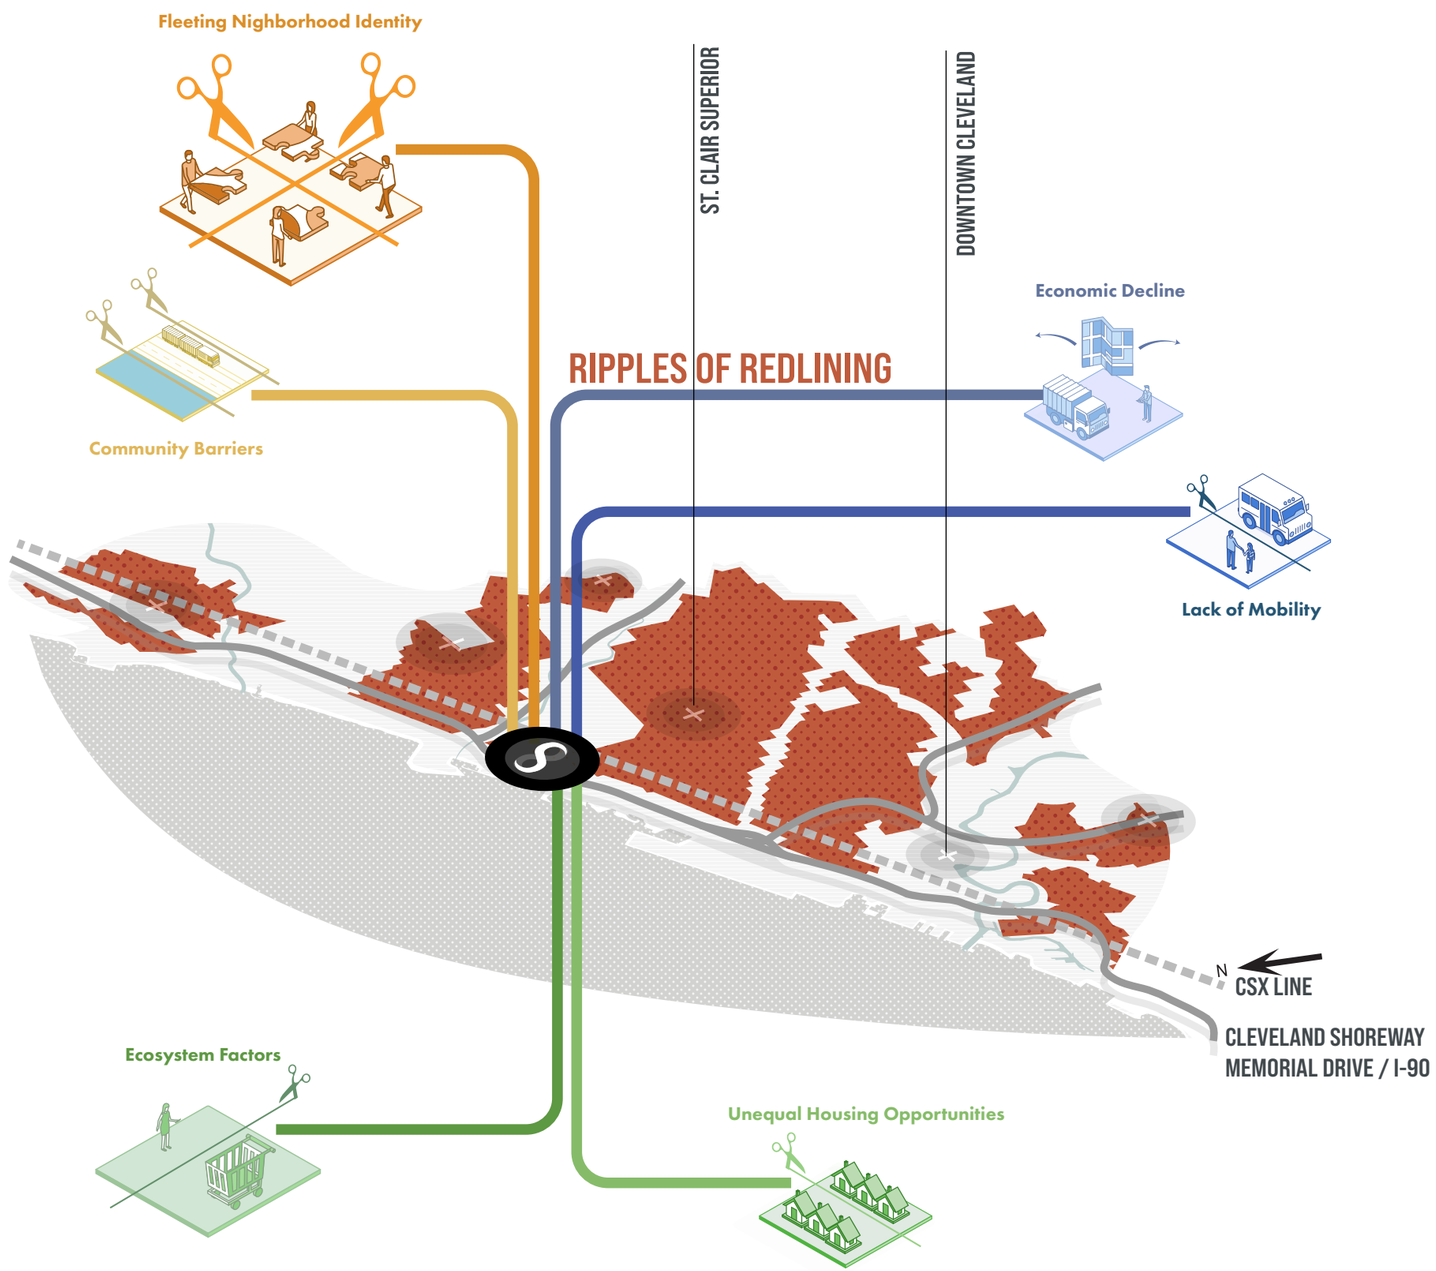
# IMPACTS OF REDLINING AND DEINDUSTRIALIZATION

Understanding the historic roots of the structural issues faced by the St. Clair-Superior community. Informed by the past, St. Clair Slopes utilizes a framework of **Resilience**, **Identity** and **Opportunity** to **build an equitable future for the region.**



## THE NEXT WAVE

### RESILIENCE

**Ecosystem Factors**
- Highway pollution and asthma epidemic
- High obesite rates & food desert
- Shade Inequity & heat island

**Unequal Housing Opportunities**
- Poor housing conditions
- Vulnerable to displacement

### IDENTITY

**Fleeting Nighborhood Identity**
- Population decline
- Lack of community led development
- History of neglecting community input

**Community Barriers**
- Loss of lake front identity
- Highway as a barrier
- Railroad as a barrier

### OPPORTUNITY

**Economic Decline**
- Low literacy rates
- Unemployment 10% Higher than city average
- Disinvestment and capital outflow

**Lack of Mobility**
- Inadequate access to amenities
- Limited safe multimodal access
- Poor quality of roads
